

You are invited by the Montreal student chapter of the CBS to the seminar:

Cell-biomaterial interactions and microfluidic devices

Dr. Christopher Moraes

Title: "Microscale tissue-on-chip technologies: watching biology function in high-definition"

McGill University

Department of Chemical Engineering
Cellular Microenvironment Design Lab

&

Dr. Antonio Nanci

Title: TBA

Université de Montréal (UdeM)
Director of the Department of Stomatology
Calcified Tissue and Biomaterials Lab

June 14th, 2017
4:30 pm-7:00 pm

Pavillon E (Maison des étudiants) Room E-3037
École de technologie supérieure (ÉTS)
1220 Notre-Dame St W (angle Murray)

[Followed by a networking session with free pizza and drinks](#)
